

WELCOME

St. Bernardine Medical Center

A member of CHW

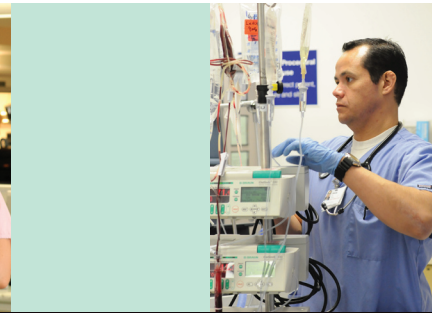

THANK YOU FOR CHOOSING US

Please be assured that your good health is our first priority. Every member of our team, from caregivers to support staff, is dedicated to providing you with responsive, quality care of body, mind and spirit. During your stay, we will work to earn your trust and confidence, just as we have done for all our patients for nearly 80 years.

A HERITAGE OF QUALITY PATIENT CARE AND COMPASSION

The modern-day St. Bernardine Medical Center is a direct reflection of the mission and values established by the Sisters of Charity of the Incarnate Word of Houston, Texas, when they founded the hospital in 1931.

A highly-regarded, nonprofit hospital, St. Bernardine provides quality medical care delivered by an innovative team of professionals. As our patient, you will benefit from a balance of leading-edge technology, the most advanced techniques and responsive, compassionate care delivered with dignity and respect for you and your loved ones.

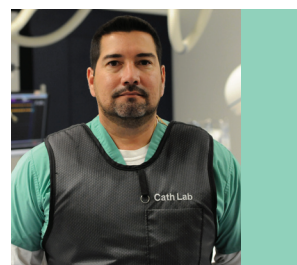

EXPERIENCE THAT INSTILLS CONFIDENCE

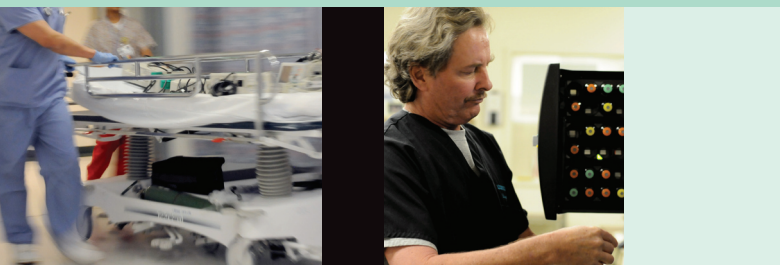

St. Bernardine Medical Center is among the largest hospitals in the Inland Empire, offering a full continuum of services, from family care to the most advanced heart procedures. Our hospital has all the latest digital diagnostic capabilities, as well as the equipment and expertise to perform the newest minimally invasive surgeries. A multi-million dollar investment over the last decade provides our patients with an expansive and highly sophisticated facility to care for the critically ill, the most advanced catheterization technologies for heart and vascular treatment, and crucial facility and equipment upgrades throughout the hospital.

AFFILIATIONS

St. Bernardine Medical Center is a member of Catholic Healthcare West, the largest nonprofit health care delivery system in the western United States. The hospital is a contracted provider with most major health insurance plans.

QUALITY MILESTONES

St. Bernardine Medical Center has established a reputation for noteworthy achievements resulting from our dedication to providing the most advanced medical care responsive to the needs of our community.

Orthopedic Care: Ranked as best in the state of California for overall orthopedic care in 2008 by HealthGrades®, the leading independent health care ratings company.

Hospital-wide Performance: Awarded the prestigious nationwide Thomson Reuters 100 Top Hospitals® Performance Improvement Leaders recognition in 2007, for achieving the greatest progress in improving performance over five consecutive years, from 2002-2006.

Inland Empire Heart & Vascular Institute: Ranked as one of the top two Southern California hospitals for heart surgery volume, performing nearly 750 open-heart surgeries and 7,500 diagnostic and interventional procedures each year.

STEMI-Certified for Heart Attack: Designated by the Inland Counties Emergency Medical Agency as specially-equipped and trained to diagnose and provide treatment for an ST-segment elevation myocardial infarction (STEMI) blockage of a coronary artery.
