HEART DISEASE
IS YOUR #1 ENEMY

LEARN MORE, LIVE LONGER.

Heart disease is still America's number one killer. In fact, someone in this country suffers a coronary event nearly every 25 seconds. Don't let that be you or your loved ones. Learn more about what you can do to win the battle, from information presented by four prominent cardiac specialists.

Women and heart disease: What you need to know.

JASVIR UPPAL, MD, CARDIOLOGIST

Sudden cardiac arrest? Are you at risk?

ROBERT LERMAN, MD, CARDIAC ELECTROPHYSIOLOGIST

Latest screening advancements for aortic and carotid artery disease.

JOSEPH VANDERLINDEN, MD, VASCULAR SURGEON

Diagnosis and treatment of cardiac and peripheral artery disease.

ASHIS MUKHERJEE, MD, INTERVENTIONAL CARDIOLOGIST
